It was suggested that we forward this email to you, also, in the matter of the proposed Telluride Regional Medical Center. This has long been considered a prime site for a new facility, but was not previously available.

Subject: Telluride Region - Medical Center

Dear Ms. Sheata:

This email is to inform the Army Corp of Engineers that Genesee Properties would consider making approximately 2 acres of land located at Society Turn available for the development of a medical center upon mutually agreed terms and conditions. We are willing to work with the local community and governmental entities to entitle and to lease approx 2 acres to allow the development of the medical center on our property which is centrally located as shown on the attached vicinity map. This email is not a commitment. It is intended to merely express our willingness to have discussions and negotiations to this affect.

Nicole
